WORK EXPERIENCE

01.09.2025 – ONGOING Full Stack Engineer

Genpact

Remote - Full Time

Stack: FastAPI, React Js, PostgreSQL

Working on AI Erp System for health care. Checking PRs and reviewing code of junior developers. Created automatic pipelines.github actions, hands on experience with aws EC2, RDS, and so on.

15.08.2025 – 25.01.2026 Frontend Engineer

Arcus Security L.L.C.

Hybrid - Contract

Project: **Official "Election Results Management System" of Kosova**

Stack: VueJs, Cloudflare Cloud

Worked on Module 2, took full ownership to create the infrastructure of the frontend, planned meetings with the KQZ team to gather requirements, created the planning, fully implemented the UI/UX of the ERP, handled large-scale data analytics and validation logic, and implemented over 50 automatic Excel and PDF generation features.

Gained extensive knowledge in cloud and infrastructure, data optimization techniques, and security implementations at the user, infrastructure, and software levels.

Reference Letter: www.albinsaraqi.com/cv/arcus-reference-letter.pdf

05.01.2025 – 10.08.2025 Full Stack Engineer

Protecht

Remote - Project Based

Project: **Ritex**

Stack: Vue Js, Nest Js, MySQL

Developed a platform called Ritex to manage printers, scanners, brands, clients, and device lifecycle (reserved, recycled, sold). Integrated barcode generation, device verification, user/client management, and a dashboard with real-time statistics.

01.05.2025 – 05.07.2025 Full Stack Engineer

Everhype Systems

Remote - Freelance Contract

CURRICULUM VITAE

Project: **Ambylon**

Stack: Vue Js, Nest Js, PostgreSQL

Maintaining a large-scale B2B learning platform, focused on bug fixes and new feature development. ~300 hours in total

01.03.2025 – 01.05.2025 **Web Developer**

Blizzard Solutions LLC

Projects:

blizzardllc.com

Hunts-point.vercel.app

Designed and developed websites with Next Js, created marketing funnels and marketing strategy.

01.01.2023 – 01.01.2025 **Front End Engineer**

Innovative Solutions

Hybrid - Full Time

I successfully completed five projects, delivering innovative solutions such as green space management systems, washing-machine configurators, e-commerce platforms, real-time device monitoring, and educational platforms. These efforts boosted client satisfaction by 35%, and we acquired three new clients as a direct result of these projects.

Discover the projects in:

<https://www.albinsaraqi.com/en/programming-portfolio?filterBy:Inno>

- Every two weeks, I shared progress updates and led demos, building trust and transparency with clients. This culminated in a successful final presentation to key stakeholders.
- Next.js Session Security: Resolved a major refresh token synchronization issue, ensuring secure, uninterrupted user sessions under high traffic.
- Optimized Next.js API Calls: Fixed a key Tabs issue in Next.js by optimizing concurrent API fetching, maintaining server rendering and faster load times.
- Inno Template: Contributed to ERP layout design and created highly optimized front-end components, like interactive Kanban boards, dynamic calendars, and complex form components, driving a significant increase in user engagement.
- Intern Mentorship: Mentored four interns through intricate projects, accelerating their skill development and contributing to a 30% rise in team productivity.

01.07.2025 – 15.12.2025 **Web Developer & Graphic Designer**

Coup Solution (Germany)

Remote - Freelance Contract

Projects:

ib-rabenstein.de - website + crm

Volksbanken - social media campaigns

Developed a CMS website for a German engineering firm, migrating SQL to MongoDB and achieving 100% SEO. Also launched four job microsites and 150+ social posts, generating 20+ applications in one week with Zapier automation.

CURRICULUM VITAE
